

ART

- Photography
- Develop an awareness of mood, emotions and feelings in photography
- Make a flickbook to give the impression of movement
- Superimpose using a combination of techniques and photographs
- Evaluate a piece of photography and talk about the idea behind it
- Complete some detailed research on the artist, the style they have, techniques used and their lives
- Comment on the artist's work, backing opinions up with thoughtful and sensible ideas
- Create a piece of work in the style of the artist

D&T

- Consider the use of the product when selecting materials
 - Say if my product meets all design criteria.
- Sketch and model alternative ideas using products and images as a starting point
 - Record ideas using annotated drawings and key notes
 - Draw plans which can be read/followed by someone else
 - Give a report using correct technical vocabulary
 - Discuss how well the product meets the needs of the user
