

GEOGRAPHY

Map and atlas work

- Earthquakes – Describe some of the physical characteristics (geomorphology)
- Understand geographical similarities and differences through the study of human and physical geography of the United Kingdom, a region in a European country and a region within North or South America
- Understand the physical and human effects of earthquakes and flooding
- Local Enquiry
- Help! I'm a coastal resident, get me out of here!
- Why are our beaches disappearing, what is the impact and what can we do about it?
- Use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies
- Collect, analyse and communicate geographical information in a variety of ways, including through maps, numerical and quantitative skills and writing at length
- Use and interpret a range of sources of geographical information, including maps, diagrams, globes, aerial photographs, Geographical Information Services (GIS) and digital/computer mapping (Google Earth and Digimaps)
- Learn and use the eight points of a compass, six figure grid references (Links with maths), symbols and key (including the use of ordnance survey maps) to build their knowledge of the United Kingdom and the wider world
